Artificial Intelligence Intro

Issued by [IBM](#)

Through self-paced learning, this badge earner has displayed an understanding of topics such as Artificial Intelligence, Augmented Intelligence, Machine Learning, and Natural Language Processing.

Skills

Artificial Intelligence

Augmented Intelligence

Machine Learning

Natural Language Processing

Earning Criteria

Please note that this badge is only accessible to registered members of IBM Digital - Nation.

Completed Artificial Intelligence introduction

Completed Artificial Intelligence case studies

Build your own chatbot

Issued by [IBM](#)

Through self-paced learning, this badge earner has displayed an understanding of topics such as Design Thinking Basics, Watson Conversation Service, Creating Intents, Creating Entities, Building a Dialog, Watson Tone Analyzer, and Building a Chatbot.

Skills

Chatbots

Design Thinking

Watson APIs

Watson Conversation

Watson Tone Analyzer

Earning Criteria

Please note that this badge is only accessible to registered members of IBM Digital - Nation

Completed Unit - Design Thinking: Before you begin; What is Design Thinking; Create a persona; Create an empathy map; Create a scenario map to see a flow; Create your hills

Completed Unit - Art of Conversation: Before you begin; What is a chatbot; Play with the food coach chatbot; Building blocks of a conversation; Intents; Entities; Dialog

Artificial Intelligence V2

Issued by [IBM](#)

Through self-paced learning, this badge earner has completed the skill learning journey on topics such as what is Artificial Intelligence (AI), types of AI, applications of AI, Cognitive Computing, Machine Learning types and algorithms, Business Analytics, Natural Language Processing, and Computer Vision.

Skills

Artificial Intelligence

Business Analytics

Cognitive Computing

Computer Vision

Machine Learning

Natural Language Processing

Earning Criteria

- Please note that this badge is only accessible to registered members of IBM Digital - Nation. [Activate](#) [Go to Settings](#)
- Completed Unit - Introduction to Artificial Intelligence: What is AI?; The three eras of computing; Evolution of AI types; Integral components of AI; Influencers of AI; Applications of

Discover IBM Watson Services

Issued by [IBM](#)

Through self-paced learning, this badge earner has displayed an understanding of topics such as Conversation, Discovery, Natural Language Understanding, Natural Language Classifier, Tone Analyzer, Speech to Text, Text to Speech, Personality Insights, Watson Machine Learning, and Watson Knowledge Studio.

Skills

Artificial Intelligence

Conversation

Discovery

Natural Language Classifier

Natural Language Understanding

Personality Insights

Speech To Text

Text To Speech

Find Valuable Insights with IBM Watson

Issued by [IBM](#)

Through self-paced learning, this badge earner has displayed an understanding of topics such as Watson Assistant, Watson Discovery, Watson Personality Insights, Watson Tone Analyzer and using Watson Personality Insights APIs to extract useful information from a pre-populated set of unstructured data.

Skills

Personality Insights

Tone Analyzer

Watson Conversation

Watson Discovery

Earning Criteria

- Please note that this badge is only accessible to registered members of IBM Digital - Nation. [Activate](#) [Go to Settings](#)
- Completed Unit - IBM Watson Discovery service: Discovery service overview
- Completed Exercise 1 - Build queries by using Discovery

Machine Learning V2

Issued by [IBM](#)

Through self-paced learning, this badge earner has completed the skill learning journey on how to apply machine learning applications, algorithms, evaluation methods, and deep learning applications with Watson Machine Learning.

Skills

Algorithms

Artificial Intelligence

Deep Learning

Evaluation Methods

IBM Cloud

IBM Watson

Machine Learning

Watson Machine Learning

Watson Studio

Earning Criteria

Please note that this badge is only accessible to registered members of IBM Digital - Nation.

Completed Unit - Introduction to Machine Learning: Machine learning; Machine learning algorithms; Neural Networks; Deep Learning; Machine learning model evaluation.

This badge was issued to [Ali Adel](#) on July 19, 2022

Integration

Issued by [IBM](#)

Through self-paced learning, this badge earner has completed the skill learning journey on how to integrate multiple Artificial Intelligence solutions with IBM Watson services such as Watson Assistant, Discovery, Natural Language Understanding, Tone Analyzer, and Watson Knowledge Studio.

Skills

Artificial Intelligence

Discovery

IBM Cloud

IBM Watson

Natural Language Understanding

Tone Analyzer

Watson Assistant

Watson Discovery

Watson Knowledge Studio

Earning Criteria

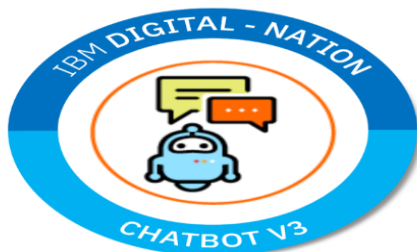

Please note that this badge is only accessible to registered members of IBM Digital - Nation.

Completed Unit - Designing and building an intelligent solution: Integrating IBM Watson services to build a solution; Watson Assistant integration with other services; Watson Assistant,

Chatbot V3

Issued by [IBM](#)

Through self-paced learning, this badge earner has completed the skill learning journey on topics such as defining what a chatbot is, identify chatbot applications, chatbot design considerations, main components of chatbot, Watson Assistant components, and building a chatbot using IBM Watson Assistant.

Skills

Artificial Intelligence

Assistant

Chatbots

Context Variables

Dialog

Entity

IBM Cloud

Intent

NLP

Watson

Watson Assistant

Earning Criteria

Please note that this badge is only accessible to registered members of IBM Digital - Nation.

Completed Unit - Introduction to Chatbots: What is a Chatbot?; Chatbots in various domains; History; What drives the growing popularity of chatbots?; Chatbots Design; Tools and services.

Natural Language Processing V3

Issued by [IBM](#)

Through self-paced learning, this badge earner has completed the skill learning journey on topics such as defining what NLP is, NLP History, applications and use cases of NLP, relationship between AI and NLP, NLP tools and services, and NLP pipeline.

Skills

Artificial Intelligence

IBM Cloud

Information Extraction

Natural Language Classification

Natural Language Processing

Natural Language Understanding

Tone Analyzer

Watson

Watson Discovery

Watson Knowledge Studio

Earning Criteria

Please note that this badge is only accessible to registered members of IBM Digital - Nation.

Completed Unit - Introduction to natural language processing: Overview; Use cases; Concepts

Watson Machine Learning V2.1

Issued by [IBM](#)

Through self-paced learning, this badge earner has completed the skill learning journey on topics such as Cross-Industry Standard Process for Data Mining (CRISP-DM), data preparation, and developing deep learning applications and neural network modeling using IBM Watson Machine Learning.

Skills

Algorithms

Artificial Intelligence

CRISP-DM

Data Preparation

Deep Learning

IBM Cloud

IBM Watson

Machine Learning

Neural Network

Watson Machine Learning

Watson Studio

Earning Criteria

Please note that this badge is only accessible to registered members of IBM Digital - Nation.

Completed Unit - Introduction to IBM Watson Machine Learning: Cross-Industry Standard Process for Data Mining (CRISP-DM); Data Preparation; Watson Machine Learning.
